

CAREER WORLDS

A ready-made 30-45 minute careers activity with around five minutes of teacher preparation.

FIVE-MINUTE PREPARATION

Open jobactually.co.uk/worlds, choose one Career World, display it on the board or share the link, and print the pupil worksheet. No pupil account, email address or CV is needed.

LESSON OUTCOME

Pupils discover that one familiar workplace contains many different careers, compare realistic routes in and choose one useful next step.

00-05

01 OPEN THE QUESTION

Choose a Career World. Ask pupils which jobs they expect to find there. Keep their first answers visible.

05-15

02 REVEAL THE TEAM

Open the world and compare its job list with the class answers. Which roles were missing and why?

15-25

03 INVESTIGATE

Pairs choose two contrasting roles. Record what each person does, the route in and the honest lifestyle information.

25-35

04 COMPARE ROUTES

Discuss apprenticeships, training, experience and transferable skills. Challenge the idea that every route needs university.

35-45

05 KEEP A NEXT STEP

Each pupil chooses one role or another Career World to investigate and writes one action they could take next.

USEFUL QUESTIONS

- Which job surprised you?
- Which skills appear in several roles?
- What might be difficult about this lifestyle?
- What would you check before paying for a course?

PILOT SAFEGUARD

Keep the activity teacher-led. Do not ask pupils to share personal profiles, precise locations or private information.
